

ATTENTION

Caution!

1. Installing NIC cards in unsupported configurations may lead to intermittent FTP disconnections with the A drive or any other connected devices.

Please review the documentation for the NIC card to confirm that it is compatible with the OS and PC configuration it is installed in, and that the correct driver is installed.

2. ALL cleaning cartridges to be used in the SL3A MUST have a CLNxxx barcode attached before they can be used. CLNxxx barcode labels are included in all SL3A accessory kits.

3. Read and Write compatibility LTO Ultrium3, ONLY. Note: Only new LTO3 media or LTO3 media that has been used in the A-series product can be used in the LTO3A products: TC-L32EC-EY, TC-L32EC-EO and EC-L2DAG-YF

If you experience any problems, contact Technical Support.
