

1 INTRODUCTION

This document describes the changes that have been made in v3.0.11 since the v3.0.10 release of A-Series Pro Video Aware firmware.

2 CURRENT DETAILS

The current release of the A-Series firmware is v2.7.1 for Autoloaders and 3.0.8 for Tabletop models (see the release notes for updates from these releases to the v3.0.10 release).

Release Identification

Rootfs Version: 3.0.11
Kernel Version: 2.6.13
Uboot Version: 1.1.2

Firmware Image File Name

A-Series.system.3.0.11.tar

3 ENHANCEMENT AND NEW FUNCTIONALITY SINCE 3.0.10

Added configuration setting to turn MXF processing off. Made this the default.

Fixed 3.0.10 bug that caused folder overwrites to fail.
