

## Quantum Product Warranty Information

Quantum Product warranties are provided in the Quantum Sales and Support Terms and Conditions for the term and under the conditions further specified below, and subject to the Regional Limitations herein. The warranty is independent of, and its term runs concurrent with, any support agreement that is purchased at the time of product purchase. Customer will perform the replacement and return all of products and components specified in the Product Warranty Information table or on Quantum’s website as Customer Installable or as Customer Replaceable Units (CRUs). Assistance in installing Customer Installable Units or replacing CRUs can be purchased from Quantum on a time and materials basis or as an uplift to a Support Contract. If purchased, such service will be provided on a Next Business Day basis. Service Requests (SRs) can be submitted via Quantum’s Online Service Request Form or telephone 24x7x365. SRs will receive a response no later than the next business day. Telephone support will include diagnosis of covered warranty issues and determination of necessary parts replacement. Replacement Parts will be shipped within one business day of Quantum’s determination that a replacement part is required. Parts identified by Quantum as Field Replaceable Units (“FRUs”) will be replaced onsite by a Quantum Field Engineer or Quantum Service Partner, normally within one business day of Quantum’s determination that parts replacement is required, subject to coverage specified in warranty or service agreement.
